*The **Linux Users' Group of Davis** presents:*

A JavaFX-based widget platform

WidgetFX is a desktop widget platform written in the JavaFX Script language. It can run widgets written in either JavaFX Script or Java and takes advantage of the latest features in Java SE 6.

Presented by: Stephen Chin, lead developer of WidgetFX and JFXtras (utilities and add-ons for JavaFX). Stephen is also the co-author of the book *Pro JavaFX Platform*.

Monday, December 17th 7pm – 9pm *Free & open to the public*	Davis Public Library Blanchard meeting room 315 East 14th Street, Davis
